Dymension | DM40

Slim bipolar tower speaker

[PRODUCT INFORMATION SHEET](#)

Slim Speaker, Room-Filling Sound

SPECIFICATIONS	
Dimensions (H x W x D)	37.4 x 10.3 x 10 in. 950 x 261 x 255 mm
Weight	38.1 lbs (17.3 kg)
Color	Black
Grille Material	Acoustically transparent black cloth (not removable)
Tweeter	(2) 1 in. aluminum oxide domes
Midrange/Midbass	(4) 4.5 in. woofers
Enclosure Type	Ported
Bipolar Array	Fully balanced, adjustable
Bipolar Array Adjustment	Rear tweeter switch: 0dB, -6dB
Frequency Response	38 Hz–30 kHz (-10dB) 55 Hz–23 kHz (-3dB)
Nominal Impedance	4Ω (8Ω compatible)
Sensitivity	87dB (2.83V/1m)
Recommended Amplifier Power Rating	50–250W
Included Accessories	(4) Adjustable hard floor glides (4) Adjustable carpet spikes

Dymension | DM40

The Dymension™ DM40 fills your home theater with larger-than-life sound. Crystal clear highs, incredible depth-of-field, and robust bass envelop you whether you're enjoying the latest blockbuster or your favorite songs. Innovations include aluminum oxide tweeters, an adjustable bipolar array, and acoustically optimized enclosure.

KEY BENEFITS

Fully Balanced, Adjustable Bipolar Array

Our bipolar driver arrays direct more sound in more directions than traditional speakers for incredible depth-of-field and a truly enveloping listening experience. The bipolar effect can be adjusted to optimize for room placement.

Long-Throw Midrange Woofers

DM40's four 4.5" woofers feature composite polymer cones that produce superior midrange detail. Long-throw surrounds optimize driver excursion for improved low-end performance.

Aluminum Oxide Tweeters

The DM40's rigid, well-damped tweeters utilize a new aluminum oxide design to provide smooth, extended response with crisp transients and exceptional definition. Pinpoint-precise imaging imparts lifelike realism, whether you're immersed in a movie or your favorite tunes.

Ported Enclosure with Column Resonance Control

Tuned cabinet features acoustically optimized chambers for improved bass extension and midrange clarity.

Slim Cabinet Design

A slim frontal area makes it easy to integrate the DM40 into virtually any room setting so it looks as good as it sounds.

Stability and Versatility for Flexible Placement

Included cabinet foot spikes and pads provide the ideal way to place and level DM40 speakers on virtually any floor surface providing acoustic isolation and stability.

Timbre-Matched

Consistent sound across other Definitive Technology series gives you the flexibility to mix and match Dymension™, Dymension CI, and Mythos speakers to design your dream home theater and whole-home system.

DM95 On-Wall Height Satellite Module Option

Available separately, this DM95 Atmos-compatible and DTS:X-compatible wall-mountable height module extends sound above you, for total sonic immersion with hyper-realistic overhead effects.

PRODUCT FEATURES

- Fully balanced bipolar driver array for truly enveloping sound
- Acoustically optimized, ported enclosure for smooth bass and clear midrange
- Aluminum oxide tweeter produces crisp, sparkling highs
- 4.5" long-throw drivers deliver detailed, balanced sound with superior low end
- Atmos/DTS:X ready—add optional DM95 surround speaker
- Slim cabinet design for unobtrusive room integration
- Rear-array attenuation switch for near-wall placement
- Timbre-matched for use with other Definitive Technology speakers
- Foot spikes and pads allow versatile placement and leveling
- Understated design disappears when the lights are low
