KEY BENEFITS

Flexible Configuration

The DM95 can be easily wall-mounted and used as side or rear speakers. Whether you're listening in Dolby Atmos or DTS:X, the DM95 will extend sound all around you.

Custom Aluminum Oxide Tweeter

The DM95's rigid, well-damped tweeter provides smooth extended response with crisp transients and exceptional definition. You'll notice clearer speech than ever before, along with an incredibly precise sonic image.

BDSS System and Linear Response Waveguide

The DM95's 5.25" mid/bass woofer features our patented Balanced Double Surround System™ technology. BDSS™ improves midrange driver excursion and provides a wide, uniform soundstage with seamless mid/bass integration. A Linear Response Waveguide™ extends and smooths off-axis dispersion for great sound everywhere in the room.

Timbre-Matched

Consistent sound across Definitive Technology series gives you the flexibility to mix and match Dymension™, Dymension CI, and Mythos speakers to design your dream home theater and whole-home system.

PRODUCT FEATURES

- This on-wall surround speaker matches other Dymension™ Series speakers
- Flexible for use as side or rear speakers
- The aluminum oxide tweeter produces crisp, sparkling highs
- A 5.25" BDSS™ driver provides balanced sound and a wide listening area
- Timbre-matched to perfectly blend with other Definitive Technology speakers
- Made for Dolby surround, Dolby Atmos, and DTS:X systems
- Perfect for movies, music, and games
- Understated design so the speakers virtually disappear into the room
